

1 PATENT-PENDING DESIGN
The foot pockets' flexible connector enables swimmers to keep a natural kick – allowing the feet to angle in on the down-kick and out on the up-kick

2 SHORT BLADE INCREASES TEMPO
Allows swimmers to keep a quick tempo during underwater dolphin kick and increases stroke rate during full-stroke butterfly

3 MUSCLE MEMORY
The combination of a short blade and separate, angled foot pockets creates a smoother transition when developing muscle memory or breaking old habits

BUILD BUTTERFLY ENDURANCE

Designed to be worn for longer periods of time to build endurance, enhance core strength and develop muscle memory

EMPHASIZES THE UP-KICK

Creates extra resistance on the up-kick to build muscle and generate a powerful kick cycle

PRODUCT DESCRIPTION

The Evo is the **first and only short-blade monofin** designed to teach swimmers an efficient dolphin kick, build muscle memory, and create perfect body position in the water. We achieved our goal of designing a monofin that supports a natural dolphin kick by enabling ankle movement.

DESIGNED IN CALIFORNIA

SIZE CHART

| SIZE (CODE) | S (04) | M (05) | L (06) | XL (07) |
|-------------|---------|--------|---------|---------|
| US MALE | 5.5-7 | 7-8.5 | 8.5-10 | 10-11.5 |
| US FEMALE | 7-8.5 | 8.5-10 | 10-11.5 | 11.5-13 |
| EURO | 37.5-39 | 39-42 | 42-44 | 44-45.5 |

**Size up if you are between sizes or have wide feet*
